

Shankhadeep Das

Experience

JUL 2020–PRESENT

Software Developer • Trainee Software Developer • GeoTech Infoservices Pvt. Ltd.

JAN 2020–JUN 2020

Internship • Intern • GeoTech Infoservices Pvt. Ltd.

Current Responsibilities:

Currently, I am working on the backend of a Fantasy football app, namely “Real Fantasy Teams” or “RFT”. The idea behind it is to create your fantasy football team.

Backend is powered by **NodeJS** and **MongoDB**. The backend handles all the live feeds during a live match and based on a player’s action points get calculated. For faster API response database is designed with the working dataset concept.

I mostly worked on a new feature addition RFT subscription (with RazorPay & ApplePay), data feed, and player point calculation and I resolved many pre-existing bugs and errors of the system from the root, sometimes I came up with hotfixes as well. I have also written several scripts to make some of the RFT scheduled tasks hassle-free and less error-prone.

Skills

NodeJS, Typescript, MongoDB, Angular, MySQL, Java, OOP

Trainings

Web Development (Internshala / Online Training)

15th July 2018 – 26th August 2018

Certificate Number: **40FC4751-A890-5197-536B-F93AC8E6A48B**

Core Java (Internshala / Online Training)

25th July 2018 – 5th February 2019

Certificate Number: **8A936606-0FCF-783D-7278-FFB884221AC7**

Education

MCA, Techno Main Salt Lake, Kolkata, West Bengal

➤ CGPA: 8.5

B.SC. Computer Science, Midnapore College, Midnapore, West Bengal

➤ Percentage: 73.33

12nd Standard, Midnapore Collegiate School, Midnapore, West Bengal

➤ Percentage: 73.14

10th Standard, Midnapore Collegiate School, Midnapore, West Bengal

➤ Percentage: 82.14
